

## Neue Publikationen die Moosflora Mitteleuropas betreffend, Dritte Folge

JÖRG MÜLLER & J. PETER GRUBER

Die neue Literaturzusammenstellung berücksichtigt hauptsächlich aktuelle bryologische Fachbücher und Fachartikel zu Studien und Fundberichten über Moose in Mitteleuropa und angrenzender Regionen, überwiegend Jahr 2019. Für aktuelle Veröffentlichungen mit Fokus auf Taxonomie und Systematik sei auf den Beitrag „Taxonomische und nomenklatorische Neuerungen – Moose, Vierte Folge“ von Markus K. Meier in diesem Herzogiella-Heft verwiesen. Für Hinweise auf entsprechende Publikationen für die vierte Folge dieser Serie sind wir wie immer dankbar.
